

Green Grand Prix Video Contest

The 2010 Green Grand Prix Expo will be held Saturday, May 8th from 1 P.M. until 5 P.M. in the Watkins Glen School Maintenance parking lot. It will include a NY Electrathon practice session, a show of environmentally-friendly vehicles, and other clean and sustainable energy exhibits.

Schools in the area are invited to send interested students to this event to videotape activities and displays of interest. This should be an upbeat promotional piece, showing highlights. A few short interviews may be included. A list of suggested or optional questions to ask people being interviewed is available on request.

Videos should be edited at each school. After editing, finished videos may be submitted to the Green Grand Prix at the address below for judging. Submitted entries must be between one and five minutes in duration. The deadline for submitting entries is June 8th.

Schools are also encouraged to use their videos in any educational way that augments their curriculum.

All videos entered in the contest will become the property of the Green Grand Prix. The winning school will receive a free video camera. Its video will be featured on the Green Grand Prix website, Glen Region Sports Car Club of America website, and the National SCCA website along with proper credits to the videographers and their school. The video will also be placed on You Tube.

Please contact me for more information. We hope your school can participate in this not-for-profit educational experience. The Green Grand Prix Expo is free and open to the public. Schools participate at no charge. Upon request, I will send you a detailed schedule of the day.

The Green Grand Prix is the only event of its kind in the nation. Please Visit our website and email or call me for more information.
